BACHELOR OF ENGINEERING
Universidade Tecnológica Federal do Paraná | 2015 - 2022

EXPERIENCE

FRONT-END ENGINEER
LOADSMART.COM April 2022 – November 2023

- Collaborate on marketing initiatives within a multinational team, actively engaging with designers to create compelling pages for the company website and external partners.
- Proficiently employ Next.Js and Styled Components for the development of new pages, ensuring a modern and visually appealing user interface.
- Provide support for landing pages created on HubSpot, contributing to the seamless integration of marketing campaigns.
- Initiated the migration process of a website originally in WordPress to a Next.Js-based, leveraging modern technologies for enhanced performance and flexibility.
- Led the initiative to automate the creation of landing pages through the HubSpot CMS API, empowering other members of the marketing team with the ability to independently generate landing pages.

JUNIOR FRONT-END DEVELOPER
NOVOVAREJO.COM August 2021 – April 2022

- Developed components and implemented new features in a micro front-end system using React.Js and GraphQL.
- Collaborated with the front-end team to create innovative features for an eCommerce platform specializing in selling car parts.
- Streamlining the design and development process.
- Facilitating efficient style changes for new clients.
- Enhancing overall consistency and user experience across the platform.

IT ASSISTANT

BIOPARK October 2020 – May 2021

- Development of landing pages and the company website.
- Utilized PHP, HTML, SCSS, and JavaScript for the design and functionality of landing pages.
- Implemented the main website using React.Js, ensuring a modern and responsive user interface.
- Integrated a Content Management System (CMS) using Strapi for efficient content management.
- Led the migration of the website to Next.Js, optimizing performance and enhancing user experience.

INTERN AS FRONT-END DEVELOPER

ENCURSO March 2020 – October 2020

- Worked with web and mobile development, contributing to full-stack projects.
- Utilized frameworks such as CodeIgniter and Laravel.
- Implemented server-side logic and database interactions.
- Developed user interfaces using HTML, CSS, and jQuery.
- Contributed to the design and implementation of responsive web applications.
- Applied MySQL expertise for efficient data storage and retrieval.
- Leveraged the Flutter framework for cross-platform mobile app development.
- Created applications that consume RESTful APIs for dynamic functionality.
